EDUCATION

Software Developer, Centennial College, Scarborough, ON
(September 2019-August 2022)

- Analyzed the problem in many ways and developed supportable problem-solving methods.
- Completed the programs using the appropriate objects and method types to solve the programming problem.
- Manipulated, examined, and reviewed data to complete the database.
- Identified the characteristics of the network and its hardware and software to support implementation and configuration tasks.

VOLUNTEERING

An English Kindergarten Teacher   (April 2021-February 2022)
Republic of Korea, Seoul

- Through the constant interaction with children aged 5 to 13, identified various solutions suitable for each child.
- Communicated with each child continuously according to the guidelines of the academy.
- Effectively solved various problems that arose while communicating with children.
- Improved the quality of academy by effectively cooperating with employees who worked together with me to provide education that can satisfy both parents and children.

An English Academy Teacher   (April 2022-August 2022)
Republic of Korea, Seoul

- Communicated effectively with children aged 8 to 16 and provided education to the children.
- Satisfactorily addressed parents' concerns by accurately providing information on the used textbook and children's condition.
- Took care of all children alone and responded effectively and flexibly to various situations to provide all the effects of education satisfactorily.
- Ability to manage, multitask, and prioritize through my various educational experiences.

PROJECTS

Portfolio

- Built a full-stack web application using express JavaScript and Node JS, hosted by Heroku server.
